Comment regarding interpretation: To attain the level of Accreditation all boxes in the row MUST be ticked.

- 1 must realise that each area is different simply because of availability and those appointed to matches can have a wide range of experience and different levels regarding examination
- 2 will need to provide some examples here eg umpiring non-club games when club cricket being played MUST count as being available
- 3 this will have to be judged locally

Responsibility of individual umpire to initiate.
Responsibility of local CUSA
